MlOps Engineer

RESUME SUMMARY:

Experienced MLOps Engineer with 6 years of hands-on experience in **deploying, debugging, automating**, and **maintaining machine learning systems** in production environments. Expertise in **IQ installation and deployment**, with a strong focus on **debugging** and **restoring servers** after failures. Proven track record in **creating, managing, and optimizing Docker images**, as well as automating workflows with **Jenkins** to ensure **seamless deployments** and proactive notifications. In-depth knowledge of **Docker** and **Linux commands**, strong background in **server cleanup** and **optimizing environments**. Proficient in **Python** for developing **automation scripts** and **data processing tasks**, along with expertise in using **SQL** for querying and managing large datasets in production systems. Extensive experience in **server backup management** to protect critical data and images. Adept at **API testing with Postman** to validate **service reliability** and **performance**. Highly skilled in **environment setup** and **debugging complex issues** to ensure **high availability** and **optimal performance** of machine learning systems.

TECHNICAL SKILLS:

- Cloud Platforms: **AWS (EC2, Lambda,EFS, S3, ELB, Auto scaling IAM, CloudWatch, ECS)**
- Programming Languages: **Python, Bash, SQL,R**
- Version Control: **Git, GitHub, GitLab**
- Database: **Oracle SQL**
- Operating Systems: **Linux (Ubuntu, RHEL, CentOS)**
- Automation & Orchestration: **Jenkins, Docker, kubernetes**
- Troubleshooting: **Strong debugging skills to resolve complex Linux server issues.**
- Other Skills: **Problem-Solving, Critical Thinking, Leadership, Enthusiasm, Project Management, Logical Reasoning, Time Management and Prioritization skills.**

PROFESSIONAL EXPERIENCE:

1. Sr. Associate - Projects (Kolkata India*)*

Cognizant Technology Solutions **2 Jun 2025 - PRESENT**

Job Description:

- Contributed to a migration automation project aimed at streamlining legacy system transitions to modern platforms.
- Developed and optimized automation scripts to reduce manual effort and improve data accuracy during migration.
- Collaborated with cross-functional teams to identify migration bottlenecks and implement scalable automation solutions.
- Ensured compliance with JNJ's data governance and security standards throughout the migration lifecycle.
- Documented processes and created reusable automation templates for future migration initiatives.

2. Senior Software Engineer (Bengaluru India)

Rxlogix Corporation India Private Limited **24 Jun 2019 - 30 May 2025**

Job Description:

- **Cost Optimization:** Successfully reduced **AWS infrastructure costs by 40%** by optimizing resource allocation, utilizing reserved instances, and implementing auto-scaling strategies, ensuring significant savings without compromising performance.

- Implemented **automatic start/stop of EC2 servers using AWS Lambda and CloudWatch,** optimizing infrastructure costs and ensuring servers are only running when needed.
- Developed **serverless deployment** using **AWS Lambda and ECS Fargate** to support scalable ML workloads, resulting in a 30% cost reduction.
- Automated the Deployment of ML builds and server configuration to the development server via **Jenkins**.
- **Authoring** and **executing automation test scripts** for Formal system validation (IQ/OQs) and other **SDLC** documentation activities.
- By the implementation of **automated JSON testing** significantly **reduced manual testing efforts**.
- Automated the **ETL monitoring and** ETL status notification.
- configure **Gunicorn** as the WSGI server to host a Flask-based REST API, ensuring optimal performance and scalability by configuring multiple worker processes.
- Implemented **PM2** as a process manager to ensure high availability of the application, automating restart and recovery processes, and managing the lifecycle of the Gunicorn processes.

AWARDS:

- Awarded with the **Standout Performer Award for 2022** for delivering projects and demonstrations on schedule to various pharmaceutical clients.
- Best **Team Player Award** in 2021 for continuous support to client demo and teammate.

EDUCATION:

- **Bachelor of Engineering in Computer Science & Engineering**

  DR. BR. Ambedkar Institute of Technology | 2015 – 2019 | Secured 8.35 CGPA

COURSES/CERTIFICATIONS:

- AWS Certified DevOps Engineer – Professional | Oct-2023
- Amazon Web Services (AWS)
- Docker Certified Associate | May2021
